

# Cylinder Delivery Trailer

## CYLT216 Cylinder Delivery Trailer

*Transports 20 lb. Grill & 33 lb. Motor Fuel Cylinders*

The CYLT216 is a versatile alternative to dedicated cylinder delivery trucks. Utilize lighter duty pickups and service vehicles to transport 216 20 lb. cylinders, or 144 33 lb. motorfuel cylinders.

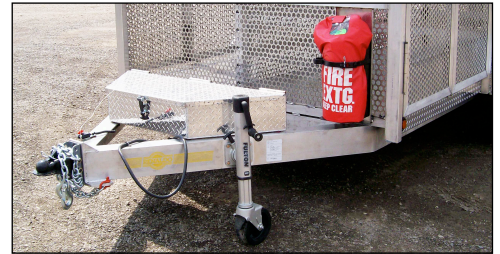

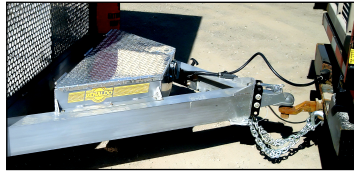

Completely enclosed with a solid roof and deck, the CYLT216 loads from 3 sides utilizing a fork lift and standard tank pallets. Each compartment is isolated to minimize load shifting. This trailer is constructed entirely of aluminum to withstand the harshest weather and road conditions. Locking compartments protect your investment in cylinders from unauthorized access.

One of the biggest features of this trailer is the ability to load and unload from ground level. No more lift gates to contend with. Minimize injuries to your personnel and damage to personal property caused by excessive handling, just getting the tanks to ground level. When parked and padlocked, this trailer can also double as a cylinder exchange cage. Minimize handling by exchanging trailers.

### Specifications

- GVWR:** 14,000 lb. - (2) 7,000 lb. low profile Dexter Torflex® axles, 4 - 225/75R15D 6-5.5 in. wide, white spoke wheels
